APPENDIX A

- A method of providing a work-at-home telecommunication service, the (Amended) 27. method comprising:
- receiving a dialed number from a calling party, said calling party being associated (a) with a calling party identification number; [and]
- automatically modifying the calling party identification number to an (b) identification number of a group associated with the calling party; and
- automatically modifying a billing identification number of the calling party to a (c) billing identification number of the group associated with the calling party.
- The method of claim [40] 27 further comprising the step of creating a 41. (Amended) billing record based upon the modified billing identification number.
- The method of claim [40] 27, wherein the billing identification number 42. (Amended) comprises an ANI number.
- A system for providing a work-at-home telecommunication service, the (Amended) 44. system comprising:

means for receiving a dialed number from a calling party, said calling party being associated with a calling party identification number; [and]

means for automatically modifying the calling party identification number to an identification number of a group associated with the calling party; and

• means for automatically modifying a billing identification number of the calling party to a billing identification number of the group associated with the calling party.

45. (Amended) A system for providing a work-at-home telecommunication service, the system comprising:

a service control point operative to automatically modify a calling party identification number to an identification number of a group associated with the calling party in response to a query; and

a signal switching point coupled with the service control point, the signal switching point being operative to send said query to the service control point;

wherein the service control point is further operative to automatically modify a billing identification number of the calling party to a billing identification number of the group associated with the calling party.

- 53. (Amended) The system of claim [52] <u>45</u>, wherein the service control point is further operative to create a billing record based upon the modified billing identification number.
- 54. (Amended) The method of claim [52] <u>45</u>, wherein billing identification number comprises an ANI number.
